

## **We all need Him**

***All around the world God's love is flowing***

*His Holy Spirit like the wind is blowing*

*God has called us all to be*

*Part of His great family.*

There are some who slave away for a crust  
Others hoard riches that will turn into dust  
Some say 'we are not religious'  
Others carry charms and are so superstitious  
Some don't think of God at all  
All they want is to have a ball

***All around the world God's love is flowing***

*His Holy Spirit like the wind is blowing*

*God has called us all to be*

*Part of His great family.*

There are some whose lives torn apart by war  
Can't live how they used to any more  
Some have been forced to flee their home  
In search of peace and rest they roam.  
Some have watched their children die  
For lack of food, they've heard them cry.

***All around the world God's love is flowing***

*His Holy Spirit like the wind is blowing*

*God has called us all to be*

*Part of His great family.*

Some are so sophisticated  
With material wealth their desire is sated  
Some are so well educated  
They can't see God in the world He created.  
There are some who throw their money away  
At the roulette tables they love to play.

***All around the world God's love is flowing***

*His Holy Spirit like the wind is blowing*

*God has called us all to be*

*Part of His great family.*

Some who have their youth and health  
Which is worth far more than a heap of wealth  
Throw it all away for drugs and drink  
Their minds are darkened – they cannot think  
Some fall into crime and prostitution  
And end up in an institution.

***All around the world God's love is flowing***

*His Holy Spirit like the wind is blowing  
God has called us all to be  
Part of His great family.*

Some are victims of greed and corruption  
Their lives wasted by despair and disruption  
Some have no freedom, end up behind bars  
Where they can't see the sun, the moon or stars  
Some have to hide what they believe  
Or a prison sentence they'll receive.

***All around the world God's love is flowing***

*His Holy Spirit like the wind is blowing  
God has called us all to be  
Part of His great family.*

Some have been victims of violence  
Mindless cruelty that makes no sense  
Some there are who've been overtaken  
By violent storms, their houses shaken  
By earthquakes, or maybe volcanoes  
Washed away by tidal waves or who knows?

***All around the world God's love is flowing***

*His Holy Spirit like the wind is blowing  
God has called us all to be  
Part of His great family.*

Some there are who know the despair  
Of losing those for whom they care.  
Some who don't enjoy good health  
Whose lives are slipping away by stealth.  
There are some whose minds cannot make sense  
Of a world that to them is dark and dense.

***All around the world God's love is flowing***

*His Holy Spirit like the wind is blowing*

*God has called us all to be*

*Part of His great family.*

There are some who live where the truth has been hidden  
To talk about Jesus is forbidden.  
There are some who teach there is some other way  
To get to God, to an idol they pray.  
Some won't acknowledge His omnipotence  
Under the guise of tolerance.

***All around the world God's love is flowing***

*His Holy Spirit like the wind is blowing*

*God has called us all to be*

*Part of His great family.*

Then there are those who love His name  
Redeemed by Him who bore their shame  
On that cross at Calvary  
He paid sin's price for you and me.  
His resurrection life we share  
Where ever we go He is there.

***All around the world God's love is flowing***

*His Holy Spirit like the wind is blowing*

*God has called us all to be*

*Part of His great family.*

And now – what are we looking for?  
The day when we will cry no more!  
Our Saviour Jesus will appear  
And wipe away our every tear.  
With Him for ever we shall be  
At last His glory we shall see.

***All around the world God's love is flowing***

*His Holy Spirit like the wind is blowing*

*God has called us all to be*

*Part of His great family.*
